

INNOVATIVE ENGINEERING OUTDOOR POWER EQUIPMENT

16" Electric Chainsaw (15 A) w/ Accessory Assortment

Tool-free blade change and adjustment offers easy operation and maintenance. Front and rear handles with rubberized soft grip for operator comfort and convenience.

Includes chain, guide bar, chain cover, tool bag, safety chaps, 3/8" low vib chain 16" and Makita safety glasses.

Part No. 330 UC4030AX1

12" Power Cutter

Advanced 5 stage air filtration system for cleaner operation. Decompression valve reduces the start up force required by 70%. Large air intake space for increased engine cooling.

- Air inlet ports reduce noise up to 40%

Part No. 330 DPC6410

12" Size

Part No. 330 DPC6411

14" Size

24.5 cc Blower

Air speed 145 MPH, max air volume 316 CFM. 4 stroke, for low noise and low emission. Auto decompression for easy starting.

Includes long nozzle, round end nozzle and tool kit.

Part No. 330 BHX2500

JPARBL2505 vacuum attachment sold separately. Ask for details.

42.4 cc Chainsaw - EASY START

18" bar. Catalytic converter. Excellent vibration damping.

Includes .325" chain 18" 50G, 18" sprocket nose bar .325" 50G, chain protector cover, universal wrench, offset screwdriver, screwdriver (for carburetor adjustment).

Part No. 330 DCS4301-18

73 cc Chainsaw - Power Head Only

Power head only option allows the user to choose which length of cutting equipment that is required. *Includes tool kit.*

Part No. 330 DCS7301-28

c/w 28" bar & chain

Part No. 330 DCS7301-24

c/w 24" bar & chain

24.5 cc Line Trimmer - PROFESSIONAL USE

Save the cost of the trimmer with fuel savings alone! Very powerful 4 stroke engine designed for tougher jobs. Reduced running costs compared to 2 stroke equivalent.

*Includes trimmer head assembly, protective guard, box wrench 16-17, hex wrench M4, hex wrench M5, shoulder harness and oil bottle. (*Engine oil not included.)*

Part No. 330 EBH253L

RELIABLE & ENVIRONMENT FRIENDLY

MAKITA 4-STROKE ENGINE SERIES

Makita's newly designed 4 stroke engines offer the following advantages compared with the equivalent size of 2 stroke engines:

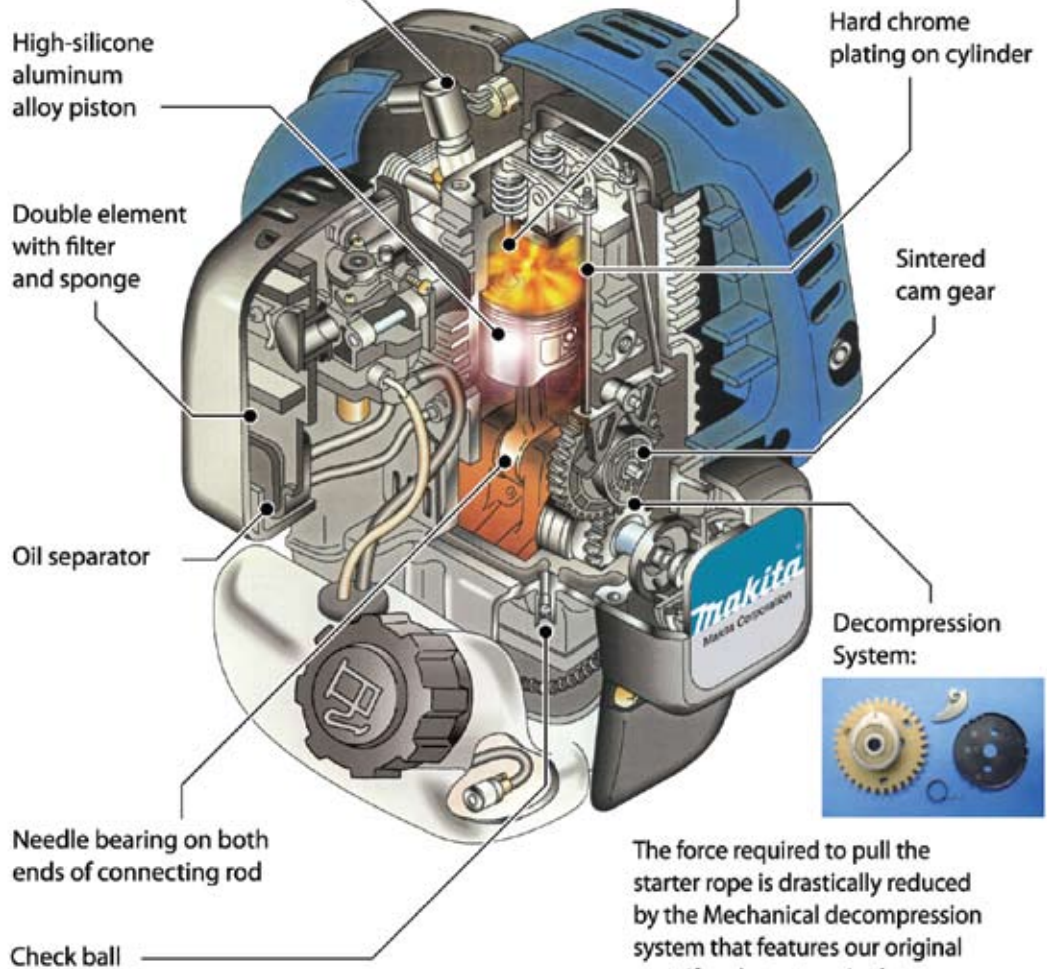

- High Performance, Compact and Light Weight
- Clean Exhaust Emissions
- Low Running Cost
- Easy Maintenance
- Low Noise

New compact plug

Valve system

The force required to pull the starter rope is drastically reduced by the Mechanical decomposition system that features our original centrifugal structure in the cam gear.
